WHO WE ARE

Destination Imagination, Inc. is a volunteer-led educational nonprofit whose mission is to inspire the next generation of innovators, leaders and creative thinkers. Annually, we provide seven fun and engaging open-ended Challenges in science, technology, engineering, visual and performing arts, improvisation, service learning and early learning. Each Challenge is designed to teach students the creative process—a powerful tool that is at the root of all innovation.

EMPOWERING YOUTH

The exponential growth in new technologies and our 21st century global economy is outpacing K-12 education, and students and teachers need opportunities to bridge this widening gap. Through the Destination Imagination program, students learn higher order thinking, improve in creative and critical thinking, explore their curiosity, build on their unique strengths, and learn the skills needed for the 21st century workforce.

Our 21st century learning programming is cross-curricular and complements K-12 education by fostering curiosity, courage and creativity.

Our open-ended academic Challenges stimulate curiosity so that kids develop an interest in their world and can imagine opportunities to improve it.

More than 150,000 students throughout the U.S. and 30+ countries participate in Destination Imagination each year.
